Federal Programs Consolidated Report

Federal Funds are received directly from the federal government and may only be used for the specific purpose for which they are intended. Federal Funds consist of any financial assistance made directly to any state department/bureau/commission/division by the United States government, whether a loan, grant, subsidy, augmentation, reimbursement or any other form of such assistance, including federal matching funds.

Federal Funds have become a substantial part of the operation of state government, either as part of ongoing programs or structured to institute state action. In all cases, Federal Funds are a significant feature of state services and the budget process.

With the following exceptions, Federal Funds must be included in the Budget Act and appropriated by the Legislature (as required by W.Va. Code §4-11-4 and §4-11-6):

- Federal Funds received by state institutions of higher education, by students, or by faculty members of such institutions for instructional or research purposes and federal funds received for student scholarships or grants-in-aid.
- Federal nondiscretionary pass-through funds earmarked in specified amounts or appropriations for transmittal to local political subdivisions or to designated classes of organizations and individuals which do not require state-matching funds and do not permit discretion in their distribution by the receiving state spending unit.
- Federal Funds made available to the State for costs and damages resulting from natural disasters, civil disobedience, or an occurrence declared by the Governor as a state of emergency.
- Federal Funds received by the West Virginia Division of Highways or the West Virginia Commissioner of Highways.

This report provides detailed information about federal programs, including a brief description, state fund in which the federal funding was received, the federal grantor and matching formula, federal catalog number, and actual and estimated receipts.

Comments:

In order to avoid a penalty, each fiscal year the state agency, to meet the required nonfederal share applicable to its allotments under this part, shall spend under the state plan for both services and administration at least the average amount of state funds it spent under the plan for the three previous fiscal years. If the state agency spends less than this amount, the commissioner reduces the state's allotments for supportive and nutrition services under this part by a percentage equal to the percentage by which the state reduced its expenditures.
