STATE BUDGET OFFICE
BUILDING 1, ROOM W310

Dave Hardy
CABINET SECRETARY

TO: All Spending Units
FROM: Dave Hardy, Cabinet Secretary
Department of Revenue
SUBJECT: FY 2025 Appropriation Request
DATE: August 1, 2023

A handwritten signature in blue ink that reads "Dave Hardy".

The Fiscal Year 2025 (FY 2025) Appropriation Request Instructions provide direction for the preparation of the Governor's FY 2025 Executive Budget and Budget Bill, which will be presented to the Legislature for introduction on the first day of the Regular Legislative Session, January 10, 2024.

We must continue our fiscal discipline over the long-term. Therefore, agencies must remain diligent in controlling spending and maintaining programs that are sustainable.

We need to remain cognizant of our normal budgetary processes. No budgetary increases should be included in your proposed FY 2025 base budget requests. As usual, base budget increase requests should be submitted separately, using an Improvement Above Current Level Request Form (AR4). Requests for FY 2024 supplemental appropriations for funding above current level should be submitted using a Request for Supplemental Request Form (AR5).

Cabinet Secretaries/Agency Heads should be prepared to discuss departmental budgetary strategies at their budget hearings.

The requests are due on or before September 1, 2023. Per W.Va. Code §11B-2-3, extensions cannot be granted.

Each cabinet/bureau/constitutional office and other selected agencies will be contacted at a later date by my office to schedule a budget hearing.

Appropriation Request Submission Instructions

In this guide, the Appropriation Request Budget Forms and Reports are explained with examples. An Appropriation Request should include all funds of the department, including funds that became appropriated for the first time in FY 2024, or by legislation that is to be appropriated for the first time in FY 2025. Budgets will be interfaced into wvOASIS Financial from Budget Development. In order for allotments and expenditure schedules to be transferred, they must be established in Budget Development. This includes **all fund types** (General, Federal, Lottery, Special, and Non-appropriated).

As the forms are being prepared, each should indicate the department and the unit name. Care should be taken to ensure that the fund numbers are the same as those assigned by wvOASIS. To submit the Appropriation Request, agencies must run the Business Intelligence reports listed below and email PDF copies to State.Budget.Office@wv.gov and to the Legislative Auditor at budget@wvlegislature.gov by September 1, 2023.

The following reports and forms must be submitted via email to the State Budget Office and Legislative Auditor:

Business Intelligence Reports

1. Division Evaluation Summary (AR1)
2. Current Level Impact Statement (AR1X)
3. Appropriation Request by Department (AR17)
4. Federal Programs Agency Listing (AR3)
5. Improvement & Current Year Supplemental Request (AR4 and AR5)
6. Listing of Capital Projects (AR8A) (AR8B)
7. Division of Programs (AR10)
8. Appropriation Names and Descriptions (if not attached to AR1 form)
9. Summary of Revenue, Expenditures, and Balances (AR7)

In the email subject line, use the following format: AR25, department #, department name; e.g., AR25 0220 Ethics Commission.

Narrative information will be extracted from the AR1 and AR10 forms and will no longer be submitted separately.

Basic Assumptions

These instructions assume users are familiar with navigation, workflow, and terminology within the wvOASIS Budget Development system. Refer to the wvOASIS Budget Development Training manual for technical information about the system and processes.

Below are basic assumptions for all funds, followed by guidelines that have been incorporated into the Executive Budget.

- All requests for funding above current level or any proposals to move between appropriations shall be requested using Form AR4. Specifically, no increase in positions (FTEs) or personal services (object 1200) for any fund type may be requested at the current level.
- The request must include, within the current level, the following:
 - An additional \$60 annual increment for each eligible employee and an increase to employee benefits to cover the additional cost of increment (object 1206).
 - Employee Benefits and Annual Increment are to be paid from the same appropriation that the salary of the employee is paid.
 - A reserve for the PEIA transfer of 1% of annualized personal services expenditures from state funds (nonfederal) based on estimated filled full-time equivalent positions on April 1, 2025, (W.Va. Code §11B-2-15). **This must be budgeted as a current expense (object 3272).**

General Revenue and Regular Lottery Funds Special Revenue and Federal Funds (including non-appropriated)

Current Level for FY 2025 will be at no more than 100% of the FY 2024 budget, less any one-time FY 2024 Budget Bill appropriations, or surplus section appropriations.

Cabinet Secretaries have the option of adjusting expenditures among the General Revenue Funds and Regular Lottery Funds for funds/agencies/programs as necessary as long as the cabinet/bureau total for these fund types is no more than 100% of the FY 2024 base appropriation. If this involves FTE changes, those must be reflected.

Special Revenue and Federal Fund requests should be within the FY 2024 current level of spending authority. Do not increase the bottom line of any fund. Increases to the bottom line or changes within appropriations, specifically to Personal Services or FTEs, must be submitted as an Improvement Above Current level, form AR4.

The request shall not include premium increases for PEIA (object 2203).

Employee Benefits Guidelines

2200	Public Employees' Health Insurance Administrative Fee	\$50.00 annually per employee
2201	Division of Personnel Administrative Fee	\$50.00 per FTE position per quarter (filled and vacant) \$50.00 per temporary FTE position per quarter (filled)

2204	Other Health Insurance	Projected premium for FY 2025
2205	Workers' Compensation	Current rate multiplied by total personal services divided by 100 (Contact your payroll office or Workers' Compensation provider for rate.)

Current Level Impact Statement Tab

This impact statement is a required tab on form AR1.

- Any legislative, federal, or court mandates that may jeopardize compliance at this level of funding.
- Any programs that could potentially be eliminated, reduced, or changed.
- Any potential reduction in force that may result at this level of funding.
- Any other information, such as potential increased cost projects, potential decreased revenues, potential short and long-range goals, or other data that would be beneficial in determining a different recommended level of funding for your department.

Be certain to detail all concerns in your agency's Current Level Impact Statement and to clearly and fully explain all improvement requests on the improvement form.

In addition, agencies may use this tab to discuss information regarding a shift in costs, department emphasis, responsibilities, or any major financial or program shifts for the current level request.

Division Account Summary (Form AR2_AGENCY_REQ)

General Information – This form is a summary of each FY 2025 Unit of the department including all funds utilized by the unit. After the Appropriation Requests are reviewed and the recommendations are determined, these forms will be completed with recommended amounts for inclusion in the Governor’s Executive Budget.

The AR2 is filled out at the detailed chart of accounts level (Budget Structure 90, level 3), including sub-fund and sub-object. If a department chooses not to budget at the detailed chart of accounts, then a default value of “0” can be used. Be aware that in the spring, units must be budgeted using the same breakdown on the AR13 (quarterly expenditure allotment) as was used on the AR2 in order to properly load into wvOASIS Financial.

For the FY 2025 Appropriation Request, the required appropriations to be used for each fund are listed below. We strongly encourage each department/agency to budget into each of these appropriations where an expense may be anticipated.

There are restrictions per Budget Bill language on the amount of funds a department/agency may move between appropriations. If the appropriation does not exist on the fund, that appropriation is not available without a supplemental appropriation approved by the Legislature when they are in session.

- < Personal Services and Employee Benefits (00100)
- < Salary and Benefits of Cabinet Secretary and Agency Heads (00201)
- < Current Expenses (13000)
- < Repairs and Alterations (06400)
- < Buildings (25800)
- < Equipment (07000)
- < Land (73000)
- < Other Assets (69000)
- < BRIM Premium (if applicable) (91300)
- < **Unclassified (09900) – For appropriated funds, no more than 1% of the total appropriations by fund may be requested, in compliance with W.Va. Code §5-1A-4. This appropriation may not include funding for Personal Services including Annual Increment or Employee Benefits. Non-appropriated funds remain appropriation 09900.**

Each appropriation that is more specific by program, such as GAAP Project, Women’s Commission, etc., must be broken down into object codes including number of FTEs.

NOTE: Budget Objects can be searched in the system.

Create/Edit Budget Request Tab

Organization – Enter your Unit code (8 digits). You can budget at the default unit (department code repeated, e.g. 0703-0703). Units budgeted on AR2 must be budgeted at the same level on AR13 (expenditure quarterly allotments) in the spring.

Budget Lines Tab

Preload Data – This column will prepopulate with the **current budget, interfaced from wvOASIS Financial on July 19, 2023**. If you budget at unit level and have made BS90 level changes not reflected in BS92, you may have discrepancies between the preload and the state level budgets.

Request – Enter the request for the unit for all funds and appropriations, including non-appropriated funds, at the current level. At a minimum this column should be entered by object code. You can use the default value, 0, for sub-fund and sub-object if you do not want to budget at these levels.

For all objects, enter any changes from the FY 2024 Preload column. Any change that would cause Personal Services to be greater than FY 2024 for any fund type must be requested as an improvement using form AR4.

The Total request will be the Preload Data column plus the Request column.

Do not delete any lines in the form. To zero out a line, negate the preload in the request column.

The current level request shall not include funds that you anticipate being available from reappropriation.

Comments Tab

This tab can be used to provide comments to reviewers within the department approval process (Stages 10-60).

Request for Appropriation – Improvement Above Current Level (Form AR4_REQ_BFY_2025)

General Information – This form is designed to accommodate all requests for funds to expand programming over and above that which will be provided at the current level. All improvements or enhancements to a department’s normal operation must be requested using this form. All requests should be as clear and detailed as possible to aid in making funding decisions. Requests without the basic information will not be considered.

Requests for improvements above the FY 2024 current level or adjustments within fund/appropriations must include how the anticipated benefits related to the improvement will be measured and how these benefits relate to the program’s mission. If a unit believes that an increased level of funding is necessary for a program, that spending unit should first seek a corresponding reduction from within the department. To ensure that any improvement package does not cause an increase above FY 2024 current level, you have multiple options that include, but are not limited to:

- < Appropriations may be decreased or deleted (zero request).
- < Programs may be decreased or deleted (zero request).
- < To accomplish a reduction in the personal services appropriation, you may delete vacant positions or reduce them to the entry level associated with the title of the position. Filled positions or expenses may be shifted to non-General Revenue sources as long as the expenses are a legitimate charge to the non-General Revenue account as provided by statutory or other proper authority (no supplanting of federal funds, etc.).

Create/Edit Budget Request Tab

Priority – Assign a priority to each request within the unit with “1” being most important (**DO NOT** rank all requests as a “1” or use the same rank more than once). All Improvement Levels advanced to the State Budget Office must be ranked according to the priority within the Department as determined by the Director and Cabinet Secretary/Bureau Commissioner or they will not be considered.

Statutorily Required – Please indicate (“Yes” or “No”) whether the request is required by statute (W.Va. State Code, Constitution, Federal Law, etc.).

Statutory Code Reference – If “Yes” was selected above, please provide the specific code reference in this field (e.g., West Virginia Code §18-9a-25) If “No” was selected, please type “n/a” into the field.

Organization – Enter the unit code for the request (8 digits).

Budget Lines Tab

Enter the chart of account elements associated with the improvement. If the improvement is for a capital project, please enter the project code used on form AR8 in the Capital Project column; if not related to a capital project, enter “0.” All improvement requests should correspond to a narrative program on form AR10. Indicate any one-time and ongoing expenditures in their respective columns.

To request new positions, use the budget object “FTE” for the positions and budget objects 1200-2209 for associated salary and employee benefits. All increases above the current level for personal services must be submitted on this form.

If an improvement request is for an entirely new program and a new program appropriation code is warranted, use the appropriation code “NEWAP,” and a new appropriation code will be assigned if the improvement is recommended.

Justification Tab

Expenditure Summary – Please describe the improvement, including any statutory or judicial requirements associated with the improvement. Any improvement request resulting from a court order or statutory mandate shall be explained identifying the date and reference of the court order or statute.

Anticipated Cost Savings – Please describe the anticipated cost savings this improvement will have on your agency’s budget if approved, if any.

Anticipated Benefits – Please justify in precise and explicit terms exactly why this improvement is necessary, what objective this improvement will accomplish, and the payback period, if applicable. If this improvement will become an ongoing program, explain the long-range objectives.

All improvement requests must include the anticipated benefits as they relate to the program’s mission/performance measures and the effects to the program if this improvement is not funded. Improvements Above Current Level will not be considered without this information.

If the increased spending is for an appropriated Special Revenue or Federal Fund, make sure adequate revenue is available and reflected on form AR12.

If the W.Va. Code requires a non-appropriated Special Revenue fund to be appropriated after the first year, the request for new appropriated spending authority should be requested on this form. Fill out the form to request the level of spending authority necessary so it can be included in the recommended budget bill submitted by the Governor. Provide the code citation requiring this action. A fund number for the newly appropriated fund can be obtained by contacting the wvOASIS help desk.

If this improvement is necessary for a match to receive additional federal funds, please indicate the dollar amount of additional federal funds anticipated.

If the improvement request is for information technology upgrades, review and approval by the Chief Technology Officer must be indicated and the approval form attached before it will be considered.

Performance Data Tab

Impact on Operating Budget – Provide for each fiscal year any impact on the operating budget. Indicate any anticipated increase or decrease in operating costs resulting from this project for the fiscal years indicated. (Increases are to be shown as positive (+) numbers; decreases are to be shown as negative (-) numbers.) There must be an estimated impact included. **If no impact is anticipated, it must be indicated by entering zeros.** Costs listed should reflect estimated expenditures and/or savings for the first full year of operation. For example, construction of a water main would not increase operating costs but may produce some savings. Construction of a new maintenance facility may increase operating costs for utilities and supplies. Future year costs should be addressed in the project description narrative. Current year estimates for operating costs are to be based on FY 2023 dollars, and any future costs described in the narrative should not be adjusted for inflation.

The PM Object column should use the following summary budget objects:

- **FTE_PM** – Any estimated change in positions that will be necessary due to this capital project.
- **Utilities_PM** – Any estimated change in utility expenses due to this capital project.
- **Maintenance_PM** – Any estimated change in maintenance expenses due to this capital project.

Justification Tab

Method of financing/leasing – Describe the terms of the finance options or lease contract.

Describe funding sources – Provide detailed information regarding the source(s) of funding for this project. Describe any special revenue funds, federal grants, requests for supplemental appropriations or improvements, or any proposed bonds, debt service, or other methods of financing options that are being considered.

Description and justification of project – Give a concise narrative explanation of the project and what is to be accomplished. The description should include the location of the improvement, its size or dimensions, and the type of construction proposed (if any). If the exact location of the project has not been determined, please indicate the proposed site(s). If the project is an equipment purchase, describe the nature of the purchase and its related benefits. Also, indicate the need for the proposed project and the reasons for selecting the proposed time period. Please cite any compliance issues (ADA, OSHA, etc.) or legal mandates that necessitate this project.

It is encouraged to identify the anticipated nonfinancial impact of significant nonroutine capital expenditures (e.g., cleaner environment, improved response time of public safety employees, smaller class sizes in schools, etc.).

If requesting an improvement package or supplemental appropriation to fund this project, or if the proposed funding is otherwise uncertain, describe the effect on the project if a portion of the funding were not provided. For example, if 50% of the funds for a project are from your current level request and 50% are being requested as an improvement, what will be the status of the project if the improvement is not granted? Will the other funding still be used to execute a portion of the project? Will the project be downscaled to match the available funds? Will the project be canceled completely? If so, where will the current level funds be used?

Impact on operating budget – Describe the nature of the increases/decreases shown indicated on the Impact on Operating Budget tab. For example, why are additional personnel needed? What classifications of personnel are needed? Why will this project cause utility costs to decrease/increase? Why will this project cause maintenance costs to decrease/increase?

Cost and/or savings must be quantified on the Impact on Operating Budget tab.
